Think about some movement verbs, jet, spin, spiral, whirl, whisk, burst, spurt, shoot, spatter, splatter, spurt, gush, rain, spray, scatter, dart, whizz, zoom, float, flutter – and their light quality – dazzling, blazing, shimmering, glittering, sparkling, glowing, glimmering, twinkling. What's the light like on the faces of the crowd, where is the smoke drifting? Did you catch the reflections on the water? It's exciting, thrilling." What will your description be?
